Chemical Name	Concentration or concentration ranges (%)	CAS Number
Lithium Cobalt Oxide	15-40	12190-79-3
Graphite	10-30	7782-42-5
Phosphate(1-), hexafluoro-, lithium	10-30	21324-40-3
Copper 📀	7-13	7440-50-8
luminum foil	5-10	7429-90-5
Nickel	1-5	7440-02-0

Labeling according to EC directives.

No symbol and Hazard phrase are required.

TCT 通测检测 TESTING CENTRE TECHNOLOGY

Note: CAS number is Chemical Abstract Service Registry Number.

N/A=Not apply.

### Section 4- First Aid Measures

Eye	Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid.
Skin	Remove contaminated clothes and rinse skin with plenty of water or shower for 15 minutes. Get medical aid.
Inhalation	Remove from exposure and move to fresh air immediately. Use oxygen if available.
Ingestion	Ingesting damaged batteries, do not induce vomiting or give food or drink. Seek medical attention immediately.

# Section 5- Fire Fighting Measures

Characteristics of Hazard	Dusts at sufficient concentrations can form explosive mixtures with air. Combustion generates toxic fumes.
Hazardous Combustion Products	Carbon dioxide.
Fire-extinguishing Methods and Extinguishing Media	For small fires, use water spray, dry chemical, carbon dioxide or chemical foam.

 Report No.: TCT221208M082

	Material Safety Data Sheet
Attention in Fire-extinguishingWear self-contained breath (approved or equivalent) a	ning apparatus in pressure-demand, MSHA/NIOSH nd full protective gear.
Section 6- Accidental Release Measu	ires
Personal Precautions, protective equipment, and emergency procedures	In case of rupture. Attention! Corrosive material. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Refer to protective measures listed in Sections 7 and 8.
Environmental Precautions	Prevent product from contaminating soil and from entering sewers or waterways.
Methods and materials for Containment	Stop the leak if safe to do so. Contain the spilled liquid with dry sand or earth. Clean up spills immediately.
Methods and materials for cleaning up	Absorb spilled material with an inert absorbent (dry sand or earth). Scoop contaminated absorbent into an acceptable waste container. Collect all contaminated absorbent and dispose of according to directions in Section 13. Scrub the area with detergent and water; collect all contaminated wash water for proper disposal.
Section 7- Handling and Storage	
Handling	The battery may explode or cause burns, if disassembled, crushed or exposed to fire or high temperatures. Do not short or install with incorrect polarity.
	disassembled, crushed or exposed to fire or high temperatures. Do not short or install with incorrect
Handling	disassembled, crushed or exposed to fire or high temperatures. Do not short or install with incorrect polarity. Store in a cool, dry, well-ventilated area away from incompatible substances. Store locked up. Keep out
Handling Storage	disassembled, crushed or exposed to fire or high temperatures. Do not short or install with incorrect polarity.         Store in a cool, dry, well-ventilated area away from incompatible substances. Store locked up. Keep out of the reach of children.         In case of rupture. Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Use personal protection equipment.
Handling Storage Other Precautions	disassembled, crushed or exposed to fire or high temperatures. Do not short or install with incorrect polarity.         Store in a cool, dry, well-ventilated area away from incompatible substances. Store locked up. Keep out of the reach of children.         In case of rupture. Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Use personal protection equipment.

<b>TCT</b>		Material Safety Data Sheet
Personal Protect	ive Equipment	Eye and Face Protection: None required for consumer use. If there is a Hazard of contact: Tight sealing safety goggles. Face protection shield. Skin and Body Protection: None required for consumer use. If there is a Hazard of contact: Wear protective gloves and protective clothing. Respiratory Protection: No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.
Section 9- Phy	sical and Chemical Pi	roperties
	Appearance: Prismatic	
Physical State	Color: Black	
	Odour: If leaking, smells of	f medical ether.
Change in condit	tion	
рН	Not applicable as supplied	
Flash Point	Not applicable unless indiv	vidual components exposed.
Flammability		vidual components exposed.
Relative density:	Not applicable unless indiv	vidual components exposed.
Solubility (water)	Not applicable unless indiv	vidual components exposed.
Solubility (other)	Not applicable unless indiv	vidual components exposed.
Section 10 – S	tability and Reactivity	
Chemical Stabilit	y	Stable under recommended storage conditions.
Possibility of Haz	zardous Reactions	None under normal processing.
Conditions to Ave	oid	Exposure to air or moisture over prolonged periods.
Incompatible ma	terials	Acids, Oxidizing agents, Bases.
Hazardous Deco	mposition Products	Carbon oxides.
)	$(\mathcal{C}^{(n)})$	

#### Material Safety Data Sheet

Irritation		In the event of exposure to internal contents, vapour fumes may be very irritating to the eyes and skin.
Sensitization		Not Available.
Reproductive Toxicity		Not Available.
Toxicologically Synergistic M	laterials	Not Available.
Section 12-Ecological Inf	ormation	
General note:		Do not allow undiluted product or large quantities of to reach ground water, water course or sewage system.
Anticipated behavior of a che in environment/possible envi impact/ ecotoxicity		Not Available.
Section 13 – Disposal Co Waste Treatment	onsiderations	Recycle or dispose of in accordance with government, state & local regulations.
		Deserted batteries shouldn't be treated as ordinary
